

Angels Howl

Can you dig a little
On a groove like this?

Grace so amazin how sweet be that sound
This holy vibration I feel it coming round
Aint no definition, it can lift the ground
Can you feel those angel's how

Roll call, boogy groove
Roll call, time to move
Can you feel those angel's howl

You can do the boogy
You got a groove
You can be the boogy
But you gotto move
And if you're willing
I gotta gig
Can you dig a little
On a groove like this?

I feel I feel it

Angel's howl boogy groove
Roll call its time to move
Roll call it's down to you now
Can you feel those angel's howl
I feel I feel it

You can do the boogy
You got a groove
You can be the boogy
But you gotta move
And if you're willing
I like to give
Can you dig a little
On a groove like this?

When those angel feathers ruffle
Boogyman shuffle

You can do the boogy, you got a groove
You can be the boogy, but you got to move
And if you're willing, I got a gig
Can you dig a little on a groove like this

When those angel feathers ruffle...boogyman
You can do the boogy....
