

## **Spectacular Junk**

Give me that bass straight up in my face  
Give me that big bad bass guitar  
Let me hear you sing those  
Boogy down notes  
Gonna take me home with your highs and lows  
You can say its all been said and done  
But there's a new tune dawning every rising sun  
If the sax don't get you  
Or the guitar strings  
The boogygroove rhythm gonna give you something

Something to believe in  
One holy great vibration  
Spectacular vibration  
Something to believe in

When you feel those drums bang the boogy groove  
Rhythm of the dirt make the mountain gonna move  
Ole hallelujah Toad play those keys  
Take me to church till the blind man sees  
Yeah gotta be all in not caught up in the middle  
Take me home Katie play that fiddle  
If sax don't get you  
or those guitars sing  
the boogy rhythm gonna give you something

Something to believe in  
One holy great vibration  
Spectacular vibration  
Something to believe in
