

Single Tree Falls

Positive, Positive

Maybe the light of day aint like you dreamed it
And it don't take much for the moment to bring out the demon
It seems like everything you touch you put to ground
I hear DJ Screw It say, hey slow the whole thing down
Cause it just seems this way, it just seems this way

If your boogy down love finds us
Up here at single tree falls...
Where the groove is irresistible
The real is seemingly mystical
You can't resist the irresistible
We're here to affirm life positive
In the light of the love and the suffering
And the light we mean cant be unseen
The light you know cant be unknown
Does it just seem this way...

Positive,
We're here to affirm life positive

*I washed away my wordly pains in a place of sacred dreams
You can taste the ponderosa in that sweat Dixie mountain breeze
The wisdom of the ancients call out in the canyon wind
Sing a song of celebration the one great vibration
Does it just seem this way
Does it just seem this way*

Single Tree Falls
Here to affirm life positive
